

Live Webinar Program: Parking Garage Inspections & Repair Solutions

Wednesday, May 27th & Thursday, May 28th

Brought to you by: **structural**
TECHNOLOGIES

During this pandemic, your parking garage will never be emptier. Being proactive with a maintenance and repair plan now will more than benefit you as the country begins to reopen. **But where do you begin?**

From the company who wrote the book **Concrete Repair and Maintenance Illustrated** in 13 different languages, STRUCTURAL TECHNOLOGIES is proud to present a two-part educational program for owners on Parking Garage Inspections & Repair Solutions.

Join us and allow our subject matter experts to guide you step-by-step so that you get a full picture of where to begin and what to prioritize for your garage.

WEDNESDAY, MAY 27, 2020 | 12:00 - 1:00 PM EST

PARKING GARAGE INSPECTIONS

- Understanding parking structure service life
- Benefits of proactive maintenance and inspection programs
- Areas to investigate in an annual garage inspection
- Spotting serious structural problems / safety issues and their causes
- The impact of repair timing on overall service life and repair costs
- Overview of an observation report and **free inspection offer for all webinar attendees**

THURSDAY, MAY 28, 2020 | 12:00 - 1:00 PM EST

PARKING GARAGE REPAIRS

- How to prioritize and maximize repair dollars
- Proper repair processes and their impact on repair life
- Protection systems overview and their impact on service life
- Strengthening solutions for structural issues or change in use
