Education Sessions

TRACK 1: Supervisors Toolkit

Session will be held 6/15-17

Supervisor's Toolkit has been specifically designed to meet the needs of the facilities management professional. It is a structured, open-ended, and pragmatic approach to developing supervisors. It is not so much a teaching program as a development process, designed to help supervisors realize both personal and professional growth. The program has been newly designed as a full three days of training and has been slightly modified for this offering. For more information about the course visit: <https://www.appa.org/course-descriptions/>

Instructor **Nancy Yeroshefsky, Emeritus**

TRACK 2: Speed of Trust

Session will be held 6/16 and 17

Recognize that trust is an accelerator, multiplier, and energizer that creates a pragmatic, economic, and actionable asset. Organizations that operate with high trust consistently and significantly outperform organizations with low trust.

»» Increase personal credibility

»» Increase trust with key stakeholders

»» Create an environment of high trust that will increase creativity, innovation, and a greater commitment to achieving results

Instructor **Michelle Frederick, American University**
